**Elsevier Announces New Partnership with Canadian Cardiovascular Society to publish the
*Canadian Journal of Cardiology***

Journal under Editorial Leadership of Stanley Nattel, MD, FRSC, FRCPC, FACC, FHRS

Ottawa, ON, Canada, October 25, 2010 – Elsevier, a world-leading publisher of scientific, technical, and medical information products and services, is pleased to announce a new partnership with the Canadian Cardiovascular Society and the January 2011 publication of the *Canadian Journal of Cardiology*, an established journal in the field of cardiovascular medicine.

Under the guidance of Editor-in-Chief Stanley Nattel, MD, FRSC, FRCPC, FACC, FHRS, Paul-David Chair in Cardiovascular Electrophysiology and Professor of Medicine at the University of Montreal and Director of the Electrophysiology Research Program at the Montreal Heart Institute Research Center, and a renowned Editorial Board, this internationally recognized journal publishes peer-review material pertinent to specialists, general practitioners, and cardiovascular scientists and addresses all aspects of cardiovascular medicine.

The *Canadian Journal of Cardiology* is the official journal of the Canadian Cardiovascular Society. It is a vehicle for the international dissemination of new knowledge in cardiology and cardiovascular science, particularly serving as a major venue for the results of Canadian cardiovascular research and Society guidelines. The Journal publishes original reports of clinical and basic research relevant to cardiovascular medicine as well as editorials, review articles, case reports, and papers on health outcomes, policy research, ethics, medical history, and political issues affecting practice.

“The *Canadian Journal of Cardiology* has been at the forefront in publishing clinical reports and research relevant to cardiovascular medicine for many years,” comments Dr. Nattel, “we are confident that partnering with Elsevier will further our reach and impact in international cardiovascular circles. This is an exciting time for the *CJC*.”

“The *Canadian Journal of Cardiology* has been and will continue to be the voice of our Society,” says CCS President Charles Kerr. The Journal is a key benefit of Society membership. It serves as a vehicle of communication that reinforces the strength of not only the CCS, but the cardiovascular specialty as a whole.”

The *Canadian Journal of Cardiology* will serve as a vehicle to enhance the dissemination of medical knowledge that will benefit people with cardiovascular disease.

ABOUT THE CANADIAN CARDIOVASCULAR SOCIETY

The Canadian Cardiovascular Society is the professional association for Canadian cardiovascular physicians and scientists working to promote cardiovascular health and care through knowledge translation, professional development, and leadership in health policy. The CCS provides programs and services to its 1900+ members and others in the cardiovascular community, including guidelines for cardiovascular care, the annual Canadian Cardiovascular Congress, and, with the Canadian Cardiovascular Academy, programs for trainees. More information about the CCS and its activities can be found at www.ccs.ca.
